

Seeker Bluetooth key and phone finder

Never lose your valuables again. Simply sync your phone with the Seeker and keep track of your possessions via your phone. Tap the Seeker to locate your phone or tablet either by sound. Clip to a keyring and your phone will remind you if you misplace them or put it in your handbag so you never walk out without it! The Seeker cleverly pin points the last place you had your valuables on a map so you can find them quickly. Also features Bluetooth selfie for snapping photos.

Features:

Find lost items – uses APP to display distance between you and your items.

Phone finder – click button repeatedly to ring phone

Selfie – Bluetooth 4.0

Last seen tracking – record the last location of your lost item on the map. Long lasting Panasonic battery, LED indicator and loop to attach to keys
